

VENTURI AERATION SYSTEM

Low Cost

Low Energy

Highly Effective

Palm Beach Aquatics proud to offer this patent pending Venturi aeration circulation system. It uses high efficiency electric motors combined with a Venturi valve for high oxygen input. There are two models to choose from, single jet and multi jet, as well as an optional filter cleaning system and a decorative rock cover.

- High Efficient Electric Motors Operating At Low Cost Amperage Of 3.3amps /115volts Delivers 12 Cfm Of Air (Average)
- Helps reduce phosphorus & nutrient levels
- Dissolved oxygen levels stabilize from top to bottom
- 1 year parts warranty

That's 3x The Air Delivery Of An Air Max Am-60 Diffuser System
